

Age Policy

You must be 18+ to commission a fursuit. I will make suits for minors that are 13+, but a parent or guardian must be involved for payment and legal reasons. I do not make fursuits for minors under 13, and I will not make bodysuits for minors for sizing reasons.

Applications

When commission spots are opened, you may contact me for a potential project.

What I will and won't make

I will

- Make a large variety of species
- make uncommon real life species, such as insects, reptiles, birds
- make custom sculpted skull creatures
- make original species (open species and species you have made yourself)
- make suits that fit glasses.
- as I model all my headbases myself, these are additions that can easily be made

I will not:

- Do business with morally repugnant people. If you have seriously harmed people or animals I have the right to not work with you.
- Accept images made by generative AI as reference.
- make copyrighted characters that you do not own. Original characters from copyrighted IPs are alright, but they must be unique characters and not copies of existing ones.
- make suits of closed species that can be bought, species that are closed because you want them to be private to yourself and friends are fine
- make suits with electronic displays (such as protogens)
- make explicit body parts.

Payment

When a commission is accepted, a down payment equivalent to the price of materials is required before starting work. The rest of the amount is required to be paid before the suit is sent out.

I mainly use PayPal Goods and Services as a payment method. It is available internationally, and provides protection for both buyers and sellers. If for some reason you need to use a different form of payment, contact me and we can work something out.

Work speed

I am a college student in a major that requires a lot of time. Fursuit work is done whenever my schedule allows. This means I may complete a ton of work during some free days I have, I may work a bit every day when I have a normal course load, or I may not work at all for a while when

I need to focus on school. I schedule my commissions so I have the hours needed to complete projects within a deadline, but I cannot guarantee steady progress week by week that other makers may give.

I send out progress updates and wip pictures as often as possible. I only work on a few projects at a time. My turnaround times (from when the project was first started) are 6 months for orders containing a head and/or bodysuit, and 2 months for other fursuit parts. Wait times are counted from when a commission is started, and are longer if you are scheduled for a slot that is started in the future.

Deadlines

If you want a suit by a certain event or convention, let me know. If the event happens around 6 months from the start date, nothing special needs to be done. If you want your suit sooner a rush fee can be paid to bump you up as my next project, and/or complete your suit within 3 months. I do not do deadlines that are sooner than 3 months from the start date, and I reserve the right to refuse a deadline.

Communication Requirements

Feedback is an important part of my work process. While the suit is being worked on, I ask that you be able to be contacted through a messaging service that allows for photos to be sent, as well as being able to respond to questions and input within 2~3 days. If you are going to be away from the internet for an extended period of time, please tell me so I can work around it.

Revisions

Design changes may be made during construction. I will request your feedback at specific stages where adjustments are easy to implement. Changes requested outside of these stages, or major changes not previously discussed, may require additional fees for labor and materials.

Measurements

It is your responsibility to give me accurate measurements when asked. Fullsuits and bodysuit commissions require a duct tape dummy to be sent to me. Please make your duct tape dummies according to the instructions I will provide you, I won't be held responsible for poor fit due to incorrectly made DTDs.

Social Media Policy

I post WIP pictures of all the suits I make to my social media accounts. By commissioning me you agree to let me use pictures of your commission (both finished and unfinished) for self promotion.

If you wish for your commission to be kept a secret (either for a surprise reveal or to be anonymous), please let me know. I won't make entirely secret projects but I will keep you anonymous or delay posts if you request.

I like to tag my commissioners in their projects I post on social media. If you want to be tagged, let me know your usernames (preferably TikTok, Instagram, Bluesky, or a personal website).

Refunds

You may request a refund at any time before work starts. This will cancel the commission. You will receive a refund minus the non-refundable deposit used to purchase materials. You may ask for any materials bought for your project, you must pay shipping however.

Refunds are generally not offered once work has started, except for the following reasons:

- I may cancel the commission due to extreme circumstances (such as an emergency, serious illness or not being able to work with you anymore). In this case, you will receive a full refund, including the deposit, and I will retain any work already completed.
- If you have a personal emergency and request a refund, I may choose to give you a full refund, including the deposit, and I will retain any work already completed.

Shipping

Shipping is not included in the original price. An estimate will be given upfront, but this may change depending on shipping prices. All packages are shipped tracked and insured, if shipping internationally customs forms will be filled out and you may have to pay additional import taxes.

I will deliver suits to events we both are going to. If I am flying to an event, there may be a luggage fee (usually this is less than what shipping would be) but there are no other fees.

Warranty and Care

All fursuit heads come with a 6 month warranty, covering repairs for any construction errors. The client pays for shipping to and from the maker, the maker pays for all materials.

All suits must be taken care of properly for the warranty to apply. This means washing, cleaning, and brushing the suit after use. In addition, suits must be clean when sent in for repairs. Any unclean suits void the warranty and will not be repaired.

Third Party Modifications

You are welcome to bring my work to a third party maker for repairs, new additions, and features that I don't offer. My warranty still applies for my work, however it does not apply to parts that the other maker has modified.
